

PROJECT DESIGN PHASE-II

DATA FLOW DIAGRAM & USER STORIES

Date	September 30
Team ID	6ab64f3a02319e850fcd5240
Project Name	AI FAQ Assistant
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a graphical representation of the flow of data in a system. It is a tool under DFD concept that highlights the amount of data system requirement graphically. It shows how data enters and leaves the system, what changes their information, and where data is stored.

Example (Simplified): <pre>graph LR; User[User] --> API[API Gateway]; API --> AI[AI Engine]; AI --> DB[(DB)];</pre> 1. User inputs query via chat interface. 2. API gateway routes request to AI engine. 3. AI engine queries FAQ knowledge base. 4. Response is sent back to the user instantly.	System Flow Diagram: <pre>graph LR; UI[Frontend UI] <--> BS[Backend Server]; BS <--> VDB[(Vector DB / NLP Model)];</pre> - Detailed data routing and secure credential handling. - Fallback mechanism for unrecognized queries. - Session storage and logs management.

User Stories:

Use the below template to list the user stories for the product:

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Customer (Mobile App)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming password.	Successful account/dashboard access	High	Sprint-1
Customer (Mobile App)	Authentication	USN-2	As a user, I can receive verification email once I have registered for the application.	Receive confirmation email & verification link	High	Sprint-1
Customer (Mobile App)	Social Login	USN-3	As a user, I can register for the application through Facebook.	Successful login & access the dashboard via Facebook login	Low	Sprint-2
Customer (Mobile App)	FAQ Query	USN-4	As a user, I can ask questions to the AI assistant and get immediate accurate answers.	Bot responds accurately within 2 seconds	Medium	Sprint-1
Customer (Website)	Login	USN-5	As a user, I can login to the application by entering email & password.	Successful dashboard load	High	Sprint-1
Customer Care Executive	Dashboard	USN-6	As an executive, I can view fallback queries and update FAQ knowledge base.	FAQ list updated successfully	Medium	Sprint-2
Administrator	Analytics	USN-7	As an admin, I can monitor user activity and system performance metrics.	Metrics dashboard displayed correctly	High	Sprint-2
